WARNINGS
1. Do not immerse the device in a decontaminating product before use.
2. Inspect the contacting surface(s) to make sure it is free from any damage (e.g. chips, scratches, etc.). Do not use or repair if the device is damaged.

PRECAUTIONS
1. Do not attempt to use the Volk Single-Use Vitrectomy Lens prior to completely reading and understanding these instructions for use.
2. To be used by a licensed physician in a method consistent with other direct image ophthalmic vitrectomy lenses.
3. The sterile packaging and lens should be inspected prior to use.
4. The Volk Single-Use Vitrectomy Lens is intended for single patient use only.
5. Do not resterilize and reuse.
6. This device is packaged and sterilized for single use only. Do not reuse, reprocess, or resterilize. Reuse, reprocessing, or resterilization may create a risk of contamination and/or cause patient infection or cross-infection, including, but not limited to, the transmission of infectious disease(s) from one patient to another. Contamination of the device may lead to injury, illness, or death of the patient.

“USE BY” DATE
Use the device prior to the “Use By” date on the package label.

SUGGESTED DIRECTIONS FOR USE
1. Remove the lens from its package and place it in a sterile work area.
2. All lens designs require methylcellulose or other similar viscous interface solution be applied to the concave contact surface (i.e., between the cornea and the device).
3. The Volk Single-Use Vitrectomy Lens is a surgical lens device that helps improve accuracy and clarity of images of the posterior and peripheral retina and of the vitreous body during surgical intervention. The lens is installed in the cornea and helps increase magnification.
